

# Your Map

Here at the centre, we've made it easy for you to find your way round by introducing the Self Guided Tour. We suggest that you begin your tour at the Water Wheel and then follow through the centre accordingly. We've numbered the tour to link with the map so if you get lost along the way, just look up the number on the map and you should get back on track.

We provide visitors with a free in depth tour of the Mill which starts from the Water Wheel at set times. See our daily timetable for details and regular craft demonstrations.
